Subject: [Your name] - My thoughts on [name of person who made the offer]'s verbal offer

Hi [Recruiter name]

I hope you had a great weekend!

I've been considering [name of person who made the offer]'s offer over the weekend and everything sounds good, although I would like to discuss the base salary component.

I think I'm a particularly good match for this position, where I would add significant value to [Company name] and to the [name of person who made the offer]'s Practice from Day One. I have a strong technical background and have built and managed teams of technical people. I am exceptionally good with clients, and have taught short courses on building rapport with and managing clients. I have an MBA and have successfully managed many portfolios of business in the [Industry name] industry over the past seven years. I've been working with [Partner Company] for over two and a half years, and have experience with many of their partnership managers and leadership team. I have a strong technical writing background and can both create and delegate the creation of good collateral quickly and efficiently.

All of these qualities contribute directly to the core components of this particular position, and that's why I'm excited for the opportunity to work with [name of person who made the offer] and his Practice in this capacity at [Company name].

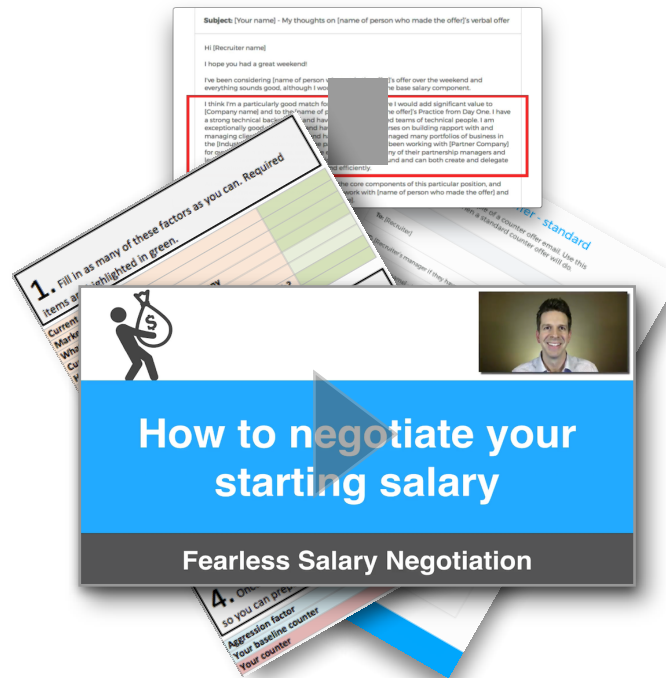

[Name of person who made the offer] offered [offer amount] and I would be more comfortable if we could settle on [counter offer amount]. I feel that amount reflects the importance and expectations of the position for [Company name]'s business, and my qualifications and experience as they relate to this particular position.

Thanks for your time, and I look forward to talking with you [day and time of your next scheduled touch-point]!

All the best

“The most helpful thing about the Crash Course was having exact word-for-word scripts at each step of the process. **I used the email templates to successfully negotiate an offer \$12,000 higher than my original offer (an increase of about 10%)!**”
